

The German Federal Institute for Risk Assessment

The German Federal Institute for Risk Assessment (BfR) is the national institute which prepares expert reports and opinions on questions concerning the safety of food, feed and chemicals, as well as consumer health protection, on the basis of internationally recognised scientific evaluation criteria. It advises the Federal Government and other institutions and interest groups in these areas. The BfR conducts its own research on topics that are closely linked to its assessment tasks. It is an institution with legal capacity within the portfolio of the Federal Ministry of Food and Agriculture (BMEL).

GERMAN FEDERAL INSTITUTE FOR RISK ASSESSMENT

10th BfR User Conference Product Notifications

18 November 2019, Berlin

10th BfR User Conference on Product Notifications

Monday, 18 November 2019

Annex VIII to the CLP Regulation, entering into force by Regulation (EU) 2017/542, defines a harmonised notification format for the submission of information on hazardous mixtures (products) to the appointed bodies of all EU member states.

The German Federal Institute for Risk Assessment (BfR) is the appointed body for the receipt and processing of product notifications used in the event of emergency health response in German poisons centres and for the assessment of reported poisoning cases in human according to the German Chemicals Act (ChemG).

The User Conference addresses to all actors, such as

- Industry (legal submitters),
- national and regional authorities and
- Poison Centres

in Germany and Europe.

The new notification procedure brings changes in legal, content and technical requirements to the product notification.

The BfR would like to inform about the current status and get in discussion with you on the following topics:

- The new European harmonised notification format
- Results of the EU feasibility study
- Mixture-in-Mixture-concept
- Unique Formula Identifier (UFI)
- Product Categorisation System (EuPCS)
- Group submission
- Data security models
- Aspects of national implementation
- FAQ
